# **BLUEWATER WHOLE HOUSE SOLUTIONS**

Cleaner, healthier water for your home

# PROTECT THE HEALTH AND WELL-BEING OF YOUR LOVED ONES

Limescale on your dishes, shower glass and fixtures or rust stains on your laundry and appliances. Worried about your water quality? You're not alone.

## Improve your water quality

Let Bluewater customize a water system to ensure the best whole house solution for your home and bring you total peace of mind.

Bluewater Whole House Solutions provide a portfolio of systems to soften, filter and purify water for household use. Bluewater offers two whole house solutions to meet your needs: the Bluewater Whole House SuperiorOsmosis™ and the Bluewater Whole House Filtration Systems.

## Components of Bluewater Whole House Solutions

$\text{NH}_2\text{Cl}$

### Catalytic Carbon Filters

Eliminates chlorine and chloramine, common municipal water disinfectants.

$\text{CA}^{++}$   
 $\text{MG}^{++}$

### Softeners

Gets rid of minerals like calcium and magnesium that cause limescale, corrosion, spotty glasses, dishes and shower walls and premature appliance failure. Reduces salt usage compared to standard water softeners due to high efficiency resins and variable upflow brining techniques to minimize water waste.

### Sediment and Turbidity Removal Filters

Take away unwanted particles that cause clog pipes and appliances.

### Programmable digital control

Control head on the pre-treatment modules to optimize operating efficiency and ensure high flow rates throughout the house.

$\text{FE}^{+++}$

### Iron and Manganese Filters

Protect pipes, fixtures, appliances, tub and tiles from staining, scaling and corrosion.

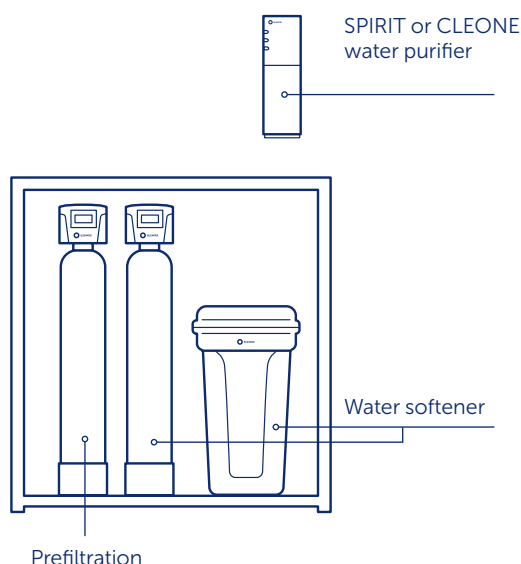

**What's in it for you**

- Get rid of contaminants in your water
- Reduce the risk of health effects
- Cleaner and softer laundry
- Sparkling clean dishes
- Longer-lasting appliances and fixtures

# BLUEWATER WHOLE HOUSE FILTRATION SYSTEM

Cleaner water for your home + pure water in the kitchen

Bluewater Whole House Filtration System is tailored to meet the treatment needs of your water. Bluewater Whole House Filtration System consists of a water softener and a prefiltration module installed at the point of entry into your home and a reverse osmosis water purifier installed under your sink for purified water for your kitchen.

Get filtered clean water in your bathrooms, laundry room and dishwasher. Plus enjoy pure and healthy water that is 99% free of microplastics, viruses, bacteria, chemical and pharmaceutical residues directly from your kitchen faucet.

Filtered water throughout your main water lines plus purified drinking water in your kitchen.

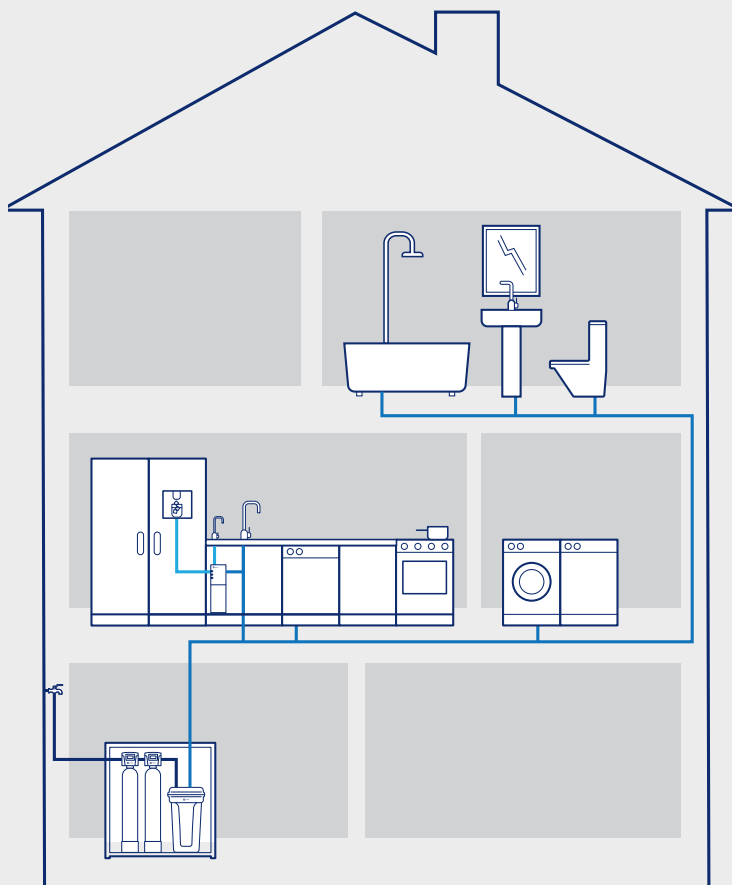

## Patented SuperOsmosis technology

Produces more purified water than traditional reverse osmosis systems

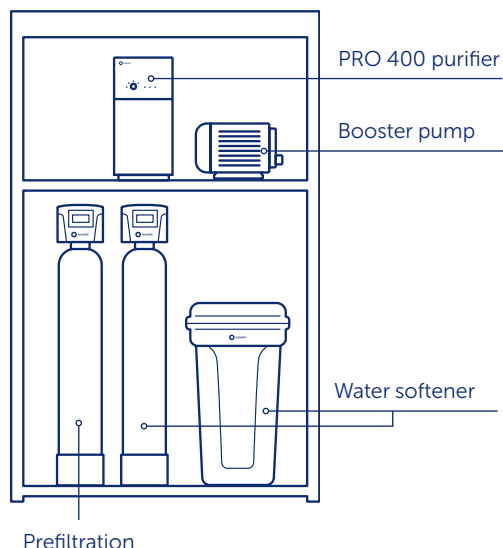

## Direct flow

Up to 936 US gallons of purified water daily

# BLUEWATER WHOLE HOUSE SUPERIOROSMOSIS™ SYSTEM

Purified water for your entire home

Purify your municipal, well or brackish water at the point of entry to your home. Bluewater Whole House SuperiorOsmosis System helps protect pipes, plumbing fixtures and appliances against sediment buildup and corrosion while providing great-tasting drinking water and clearer, cleaner water for bathing, washing, and laundry throughout your home

Everything you need to purify water for residential use comes with your Bluewater Whole House SuperiorOsmosis™ Purification System. All components are mounted in an aluminum frame if needed by customer, and hose connectors are included. The solution is simple and straightforward.

This next-generation reverse osmosis water purification system ensures that water throughout your home is up to 99% free of impurities, such as lead, virus, bacteria, microplastics, chemical and pharmaceutical residues.

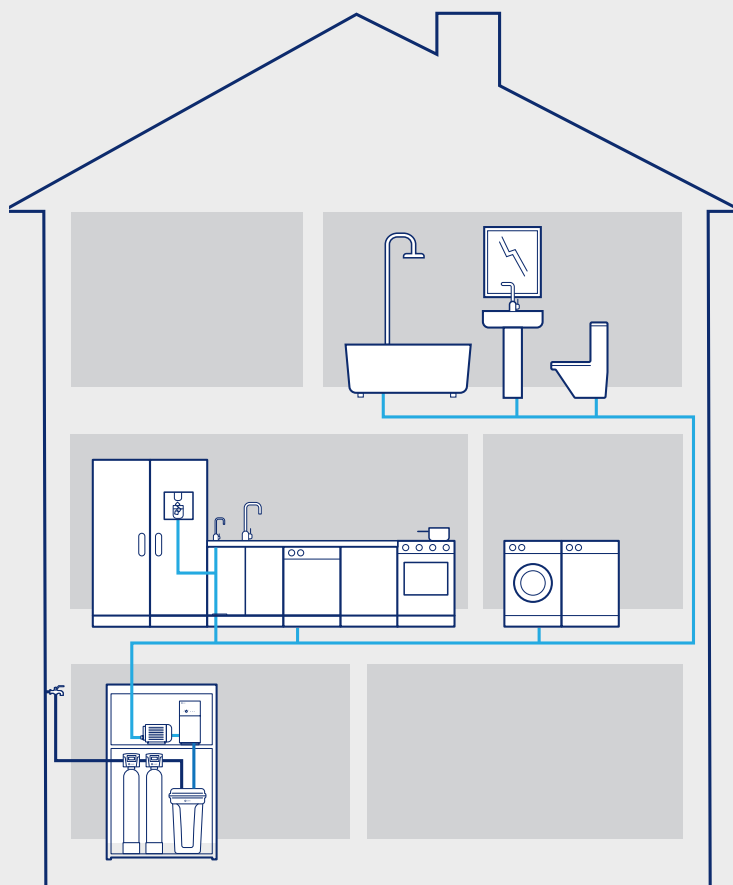

#### Patented SuperOsmosis technology

Produces more purified water than traditional reverse osmosis systems

#### Direct flow

1,825 US gallons of purified water daily

#### About Bluewater

Honored in 2019 with two Fast Company World Changing Ideas Awards and a 2019 KI Kitchen Innovations Award, Bluewater innovates, manufactures and commercializes compact water purifiers for residential, business and public use. Bluewater harnesses patented next-generation reverse osmosis technology to remove virtually all pollutants, from toxic metals, chemicals and microplastics to limescale. Bluewater endorses the UN Environment Clean Seas initiative to turn the tide on plastic.
